SPO Price List No. 06-23 (Oahu Only)

Replaces 04-24

April 13, 2006

LUMBER AND LUMBER PRODUCTS

(IFB-06-069-O)

June 1, 2006 to May 31, 2007

Agency requirements for this lumber price list are separated into untreated lumber (Items 1-79) and treated lumber (Items 80-126) with Tribucide II or Borate. Information on the wood treatments can be found on page 5 of this price list.

STATE'S COMMITMENT. Agencies of the following purchasing jurisdictions are required to purchase from this price list:

Executive
Judiciary
Department of Education

University of Hawaii
City & County of Honolulu

EXCEPTION TO THE PRICE LIST. When the use of the price list is not suited to an agency's purpose, the appropriate purchasing jurisdiction may grant an exception to purchase outside of the price list. For this purpose, Executive Branch agencies shall use SPO Form-5, "SPO Price List Purchase Exemption.", available on the SPO Website, www.spo.hawaii.gov; click on "Forms for State Agencies" in the Procurement of Goods, Services, and Construction – Chapter 103D, HRS menu.

POINT OF CONTACT. Questions regarding the products listed herein, ordering, pricing and status should be directed to the vendor. Procurement questions or complaints may be directed as follows:

Jurisdiction	Name	Telephone	FAX	E-mail
Executive	James Nakano	586-0563	586-0570	james.m.nakano@hawaii.gov
DOE	Procurement Staff	675-0130	675-0133	connie.chun@notes.k12.hi.us
UH	Gwen Won	956-8687	956-2093	gwon@hawaii.edu
Judiciary	Newton Sakamoto	538-5805	538-5802	newton.t.sakamoto@courts.state.hi.us
C&C of Honolulu	Mike Hiu	527-5669	527-6834	mhiu@honolulu.gov

USE OF PRICE LIST BY NONPROFIT ORGANIZATIONS. Hawaii Revised Statutes (HRS), nonprofit organizations with current purchase of service contract(s) (Chapter 103F, HRS) have been invited to participate in the State Procurement Office's (SPO) price lists.

If a nonprofit organization (hereinafter called "nonprofit") wishes to purchase from a SPO price list, the nonprofit must obtain approval from each price list vendor, i.e., participation must be mutually agreed upon. A price list vendor may choose to deny participation by a nonprofit. Provided, however, if a nonprofit and price list vendor mutually agree to this arrangement, it is understood that the nonprofit will retain its right to purchase from other than a price list vendor.

SPO Price List No. 06-23
6/01/06 to 5/31/07

VENDORS:

VENDOR-PURCHASE ORDER ADDRESS

***Honsador Lumber Corporation**

91-151 Malakole Road
Kapolei, Hawaii 96707
Contact: Poni Ventura (State)
Cleo Gallo (C&C Hnl)
Phone: (808) 682-2011
Facsimile: (808) 682-5252

VENDOR-PAYMENT REMITTANCE ADDRESS

Honsador Lumber Corporation

Same as purchase order address

*Contractor has the capability to accept procurement/credit cards.

VENDOR CODES for annotation on purchase orders are obtainable from the "Alphabetical Vendor Edit Table Report" available at your department's fiscal office. **Agencies are cautioned that the remittance address on an invoice may be different from the address of the vendor code annotated on the order.** Therefore, when processing an invoice for payment, be sure that the correct vendor code is used.

UNIT PRICES include delivery to destination and all other costs except the Hawaii General Excise Tax, currently (4%). Agencies are advised to add the 4% tax to their order total.

PURCHASING CARD (pCard). Agencies of the Executive branch, with the exception of the Department of Education and the University of Hawaii, shall use the State's purchasing card (pCard) for orders totaling less than \$2500. If vendor requires hardcopy confirmation of a transaction made by pCard, agency may use SPO-10B, pCard Order Form, available on the SPO website: www.spo.hawaii.gov; click on "Forms for State Agencies" in the Procurement of Goods, Services, and Construction – Chapter 103D, HRS menu.

For purchases \$2500 or more, agencies may use the pCard, subject to its credit limit, or issue a purchase order.

PURCHASE ORDERS may be issued for purchases \$2500 or more and for vendors who either do not accept the pCard or who set minimum order requirements before accepting the pCard for payment or who charge its customers a transaction fee for the usage.

ORDERING a a timely basis is the responsibility of each agency. Orders shall be issued on an as-needed basis during the price list period. Vendor is not obliged to accept any order received after the price list expiration date; however, vendor shall fill timely orders for which delivery may extend beyond the expiration date. Agencies shall not issue purchase orders specifying delivery after the price list expiration date.

LENGTHS AS REQUIRED. The exact lengths desired for items listed under Douglas fir, Redwood, moulding, insulating board, Philippine Mahogany hardwood and Ponderosa Pine shall be determined by the agency at the time of ordering. Lengths of 8' to 16' shall be considered normally stocking lengths for all of the above items; however, because the vendor must purchase lumber in random lengths from the mills, the exact number of pieces in the lengths requested by the agencies may not always be available. Lengths of 18' to 24' shall be provided as available, if requested by the various agencies.

If an order cannot be filled exactly as requested for lengths of 8' to 16', and/or if lengths of 18' to 24' are not available, the vendor shall work with the ordering agency to determine the best alternative lengths to meet their needs for the specific application/project.

DELIVERY shall be made as follows:

- \$100.00 or more: within seven (7) working days after receipt of order by the vendor.
- less than \$100.00: available on a "will call" basis within seven (7) working days after receipt of order by the vendor; delivery shall be made only at the option of the vendor according to his delivery schedule.
- wood preservation treatments: four (4) weeks.
- plastic lumber: see PL for delivery time required upon receipt of purchase order.

Contractor shall unload lumber at the delivery point designated on the purchase order and stack in accessible racks if requested by the ordering agency.

Late Deliveries. The vendor shall notify the ordering agency of any items that cannot be delivered according to the schedule, including an anticipated date when the delivery can be completed. The agency has the option to decide on accepting partial shipment of an order or delaying delivery until a complete shipment of all items (backorders) can be made.

INSPECTION. Agencies are advised to inspect merchandise delivered immediately upon receipt and report any discrepancies to the vendor within five (5) working days from delivery date.

PRODUCT SUBSTITUTION. Vendor is obliged to deliver products listed on this price list. If vendor is unable to deliver products due to inability to obtain the product from its source of supply, the vendor shall work with the agency to determine whether an alternative product can meet the needs of the agency's specific application/project. The vendor shall provide the alternative product, if acceptable to the agency, at the prices listed.

INFORMATION to be included on the purchase order:

1. SPO Price List No. 06-23
2. Price list item number, including description and quantity in board feet*, lineal feet, square feet, number of pieces, as appropriate.
3. Delivery instruction. (Vendor will unload lumber at delivery site and stack in racks if required by agency.)
4. Name and telephone number of requisitioner.

1" lumber and moulding are normally measured in lineal feet. Other boards are measured in board feet. The rule to calculate board feet is: Multiply the thickness in inches by the width in inches by the length in feet divided by 12. Thus, a piece of lumber 2" x 4" x 12' would be calculated $(2" \times 4" \times 12') / 12 = 8$ board feet.

Clf = hundred linear feet
Mbf = thousand board feet
Msf = thousand square feet

QUALITY. Substitution of inferior grade lumber is not acceptable. Unusable and unacceptable products will be replaced by the vendor with acceptable products within five (5) working days after notice by the agency.

VENDOR AND PRODUCT EVALUATION form, SPO-12, revised 9/30/05, is made available to the agencies for the purpose of addressing concerns on this price list. The form can be accessed from the SPO website: www.spo.hawaii.gov. "Click" on Forms for State Agencies in the Procurement of Goods, Services and Construction – Chapter 103D, HRS menu.

PRICE LIST AVAILABLE ON THE INTERNET. The price list is available at the SPO website: www.spo.hawaii.gov. "Click" on Price List and Vendor List in the Procurement of Goods, Services, Construction – Chapter 103D, HRS..

Administrator

INFORMATION ON WOOD TREATMENTS

Tribucide II, manufactured by KOP-COAT of Pittsburgh, PA, uses Chlorpyrifos/IPBC in minerals spirits which retains the natural color and appearance of untreated wood. The finished product is free of residue with no raised grain or checking and there is no offensive odor. Tribucide-II treated wood can be painted, varnished or stained in the same manner as untreated wood.

Effective against dry wood and subterranean termites including the Formosan Termite (*Coptotermes Formosanus*) and fungus under severe tropical conditions, it is suitable for interior and exterior use in above ground application and used for paneling, flooring, millwork, cabinets, doors, furniture parts and roof decking. May be used for framing and structural wood as well as hardwood or softwood plywood

Tribucide II is not recommended for use in direct contact with soil or water. The treated wood is not corrosive to low carbon or stainless steel, but corrosive to copper and brass.

Chromated Copper Arsenate (CCA) has been deleted from this price list because of precautionary information received from the EPA regarding the usage of CCA-treated lumber and/or plywood.

Borate treated lumber and/or plywood is less toxic than CCA, using an inorganic boron-oxygen compound, and having low environmental impact. During pressure treatment, high levels of borates are forced into the exterior sections of the lumber distributing itself after initial treatment – from areas of high to areas of lower concentration.

Borate is non-repellant and termites will attempt to feed. As long as there are effective levels of borate, the lumber will be protected from organisms by affecting its cell structure.

Builders use lumber treated with borate for the sill plate, wall studs, ceiling joists, trusses and any other interior wood components. Lumber treated with borate can be machined, shaped, glued, coated and painted; it does not affect ferrous metals, wood fasteners or screws.

Not susceptible to decomposition or degradation, borates are subject to depletion because they remain mobile within treated wood. Borates are water soluble; hence, continual water dilute and leaves the wood unprotected.

Borate-treated lumber and/or plywood should not be used whenever the wood comes in direct contact with the soil, like fence posts or building supports, or where the lumber is continuously exposed to running water. It should not be used on decks or outdoor structures unless combined with other wood protection ingredients that seal in the borates. Wood treated with borate and protected by a three-coat paint system or other approved sealant can be used as exterior building above-ground application.
